

Until you can get one of these,  
use one of these.

Hausken sound moderators are manufactured in Norway in hard-anodised, high quality aluminium for durability. The moderators have two main parts with the baffles being machined from a solid aluminium bolt, 35mm, 45mm, 55mm or 70mm in diameter. Each moderator is fitted with an 18x1mm thread but, using the unique Hausken barrel nut conversion system, the thread is adapted to suit your rifle.

**WD60**  
Diameter - 60mm  
Total Length - 224mm  
Weight - 540gr  
Decibel Reduction - 35-40dB  
Fitting - Over Barrel / Reflex

**SD224**  
Diameter - 50mm  
Total Length - 224mm  
Weight - 310gr  
Decibel Reduction - 31-37dB  
Fitting - Over Barrel / Reflex

**JD184**  
Diameter - 50mm  
Total Length - 184mm  
Weight - 270gr  
Decibel Reduction - 25+dB  
Fitting - Over Barrel / Reflex

**MD35**  
Diameter - 35mm  
Total Length - 128mm  
Weight - 145gr  
Decibel Reduction - 23dB  
Fitting - End of Barrel  
MD35 & MD45 for calibres:  
.17HMR or .22/222/223/22-25

**HAUSKEN**  
LYDDEMPER
